

The majority of fatal accidents have these common root causes

- Failure to identify hazards
- Failure to manage risks

SLAM Risks the SMART Way!

Miners:

- | | |
|----------------|---|
| Stop | Think through the task |
| Look | Identify the hazards for each job step |
| Analyze | Determine if you have the proper knowledge, training, and tools |
| Manage | Remove or control hazards and use proper equipment |

Mine Operators:

- | | |
|----------------|---|
| Stop | Isolate each step in a task and identify past and potential accidents, injuries, and violations. |
| Measure | Evaluate the risks associated with the task and barriers that have allowed hazards to cause injuries |
| Act | Implement controls to minimize or eliminate any hazards that make the risk unacceptable |
| Review | Conduct frequent work site visits to observe work practices and audit accidents, injuries, and violations to identify root causes |
| Train | Develop a human factor-based action plan and then involve and train the miners |

Make the RIGHT Decision!

The majority of fatal accidents have these common root causes

- Failure to identify hazards
- Failure to manage risks
